Explain fully and clearly the details of your complaint. (Attach additional pages if necessary and any supporting documentation)

In the year 2021 Southern California Edison (SCE) started charging exorbitante amounts for my electric usage (by August they said I owed over 900.00 dollars). In the five previous years I had paid no more than 1.00 - 5.00 a month and recieved 50.00 - 75.00 at the end of the year due to having solar on my roof. I was told by their representative that I my solar was not producing as much. I had solar company come out and check it and they said it is producing the same amount as it was five years ago. When I told SCE this, they said I was using more. I asked for copies of my bills dating back to January 2019. After repeated phone calls and two months I was told by Elizabeth Duran that she couldn't produce invoices back that far. I filed a informal complaint with the CPUC. On February 10th I recieved correspondence from Greg Harris stating that SCE resolved my issue. The did not. I spoke with Greg Harris and he sent me what was supose to be three years of usage from SCE. The date range was 12/2019 to 12/2021 (2 years. I never recieved this). While I was waiting for a responce I have recieved four months of energy production reports from my solar company and when I compaired that to my bill I found that SCE is giving me less than half the credit for I am producing. The say I owe them 907.95 on my last bill I say I don't. If i am using more why has that amount not changed since August 2021 & why am I not getting full credit.

(G) Scoping Memo Information (Rule 4.2(a))
